

### I. READING

Ben's father comes from in India. He arrived in England 25 years ago. He's a computer engineer.

Ben's mother is English. She's a nurse at a hospital in Bristol. They live in a nice detached house in Bath, in the south of England.

Ben is 12 years old. He has two sisters and a brother. The girls are twins. They are 13 years old. His brother Arjuna is 18 and he studies science at the University of Bristol.

Every morning Ben gets up at a quarter to eight. Before he goes to school, he has traditional English breakfast: bacon and eggs; a sausage, tomatoes, toast, honey and coffee. His sisters, Jane and Indira, usually eat only corn flakes with milk for breakfast. Ben starts school at nine o'clock and finishes at four p.m. He is a very good student and he likes his school very much. His favourite subject is IT. He is also very good at Maths and languages. He doesn't like History and he isn't good at it. In his free time, Ben likes reading spy stories, rollerblading, playing hockey and riding a bike. But his hobby is surfing the Internet and playing games on-line.
